TITLE	Vital Statistics for Ohio Appalachian School Districts, Fiscal Year 1999.
INSTITUTION	Ohio Univ., Athens. Coalition of Rural and Appalachian Schools.
PUB DATE	2000-05-00
NOTE	18p.
PUB TYPE	Numerical/Quantitative Data (110)
EDRS PRICE	MF01/PC01 Plus Postage.
DESCRIPTORS	Attendance; Dropout Rate; Elementary Secondary Education; Enrollment; Expenditure per Student; *Rural Schools; School District Wealth; *School Districts; *School Statistics; Tables (Data); Teacher Qualifications; Teacher Salaries
IDENTIFIERS	Appalachia; *Ohio (Southeast)

ABSTRACT

This document compiles school district data on 18 factors for the 29 southeastern Ohio counties designated as "Appalachian." Data tables present state means, Appalachian means and ranges, and individual district data for fall enrollment; percentage of minority students; percentage of Aid to Dependent Children; average income; property valuation per pupil; expenditures per pupil; effective mills; average teacher salary; student-teacher ratio; percent minority staff; percentages of teachers with no degree, a bachelor's degree, and a master's degree; student and staff attendance rates; and dropout rate. Compared to state means, school districts in Ohio Appalachian counties averaged fewer students, lower per capita income, lower expenditures and property valuation per student, lower effective millage, lower teachers' salaries, fewer teachers with master's degrees, lower percentages of minority students and teachers, slightly higher student attendance rates, slightly lower teacher attendance rates, and considerably lower student dropout rates. INTRODUCTION

This compilation of **Vital Statistics** for member school districts continues a practice introduced by Dr. William Inman (1988-1998) and continued by Dr. Max Evans (1998-1999), past Executive Directors of the Coalition of Rural and Appalachian Schools. This document provides important comparative data to school leaders throughout the 29 Ohio counties designated in federal legislation as "Appalachian."

The 1999 edition of **Vital Statistics** provides comparative data on 18 factors for Appalachian school districts grouped by counties. In addition, means are provided on the 18 factors for all 611 school districts in Ohio as well as for the 126 districts included in this study. Highs and lows for school districts in the 29 Ohio Appalachian counties are also shown.

As expected, there is considerable variation among school districts in Ohio Appalachian counties and some very significant differences emerge when state and regional means are compared. School districts in the Ohio Appalachian counties average 1000 fewer pupils; less per capita income; lower expenditures per pupil; lower property valuation per pupil; lower effective millage; lower teachers' salaries and fewer teachers with Master's degrees.

Statewide averages show a much higher percentage of minority students and teachers than in the Ohio Appalachian school districts; however, the percentage of Aid to dependent Children is slightly higher for Ohio Appalachian school districts. Teachers in the 29 Appalachian counties tend to have slightly more experience than the statewide mean. Ohio Appalachian school districts have slightly higher student attendance rates, but slightly lower teacher attendance rates than all Ohio school districts. Student dropout rates in the 29 Appalachian counties are considerably lower than the state average.

The data presented in this study are from the Ohio Department of Education and was obtained from Richard Smith, Ohio Department of Education, Area 6 Coordinator. Lori Stump, assisted by Joan Waggoner, was responsible for entering the data and compiling Ohio Appalachian school district means. The Coalition of Rural and Appalachian Schools is indebted to Mr. Smith, Ms. Stump and Mrs. Waggoner for their work on this report.
